Metropolis Action Team-Permanency by Race

Disproportionality & Disparity

Disproportionality –

Occurs when the percentage of a group of children in a population is different from the percentage of the same group in the child welfare system.

For example, if 25% of the children in a county were African American, then 25% of those in foster care should be African American, all things being equal. That would be proportional. If these percentages differ there is disproportionality.

Disparity –

Unequal treatment or outcomes when comparing children of color to non-minority children.

For example, if 30% of Hispanic children who are indicated are then placed into care, but only 15% of White children who are indicated are then placed into care, there is a disparity in the risk of entering placement, with Hispanic children at twice the risk to be placed into care outside their homes after indications.

Disparity & Disproportionality examined at 4 critical points:

- Indicated Cases
- Entries into Care (Child Data, by race)
- Child Goal
- Permanencies

Racial Disparity: Case Indications

Disparity Ratio* for Indications [FY 17-18]

County	FY12-13	FY13-14	FY14-15	FY15-16	FY16-17	FY17-18
Metropolis				2.18	2.18*	2.18*

✓ Metropolis has **Moderate Disparity** with regards to the number of Indicated Cases of African American Children

*The research team did not receive updated data for the period 2016-2018, thus the calculated ratios only reflect trends in the 2016 fiscal year

Racial Disparity: Child Goal

Disparity Ratio* for Indications [17-18]						
Permanency	FY12-13	FY13-14	FY14-15	FY15-16	FY16-17	FY17-18
Adoption				0	0*	0*
Guardian				-	-	-
Independent				0	0*	0*
Reunification				1.39	1.39*	1.39*
Other				-	-	-

Metropolis Action Team has:

- ✓ **No Disparity** with regards to “Adoption” of African –American Children
- ✓ **No Disparity** with regards to “Independency” of African –American Children
- ✓ **Low Disparity** with regards to “Reunification” of African –American Children

*The research team did not receive updated data for the period 2016-2018, thus the calculated ratios only reflect trends in the 2016 fiscal year

Racial Disparity: Permanency

Disparity Ratio* for Indications [FY 17-18]

Action Team	FY12-13	FY13-14	FY14-15	FY15-16	FY16-17	FY17-18
Metropolis				1.32	1.32*	1.32*

✓ Metropolis has **Low Disparity** with regards to Permanency of African American Children.

*The research team did not receive updated data for the period 2016-2018, thus the calculated ratios only reflect trends in the 2016 fiscal year

Disparity ratio on this variable = (number of African American children achieving goal divided by number of African American children who enter care) over (number of White children achieving goal by the number of White children who enter care).

Racial Disparity: Indices Category

No disparity - 0 to 0.99

Low disparity - 1.00 to 1.49

Moderate disparity - 1.5 to 2.49

Significant disparity - 2.5 to 3.49
