

## Our Priority

The Kimmel Belonging and Engagement Hub is committed to fostering a campus environment where every student feels empowered to express their ideas, values, and perspectives.

Through inclusive dialogue, education, and support, we encourage the amplification of student voices while ensuring that all expression is conducted safely, respectfully, and within the framework of mutual understanding. By promoting a culture of civic engagement and free speech, SIUE aims to create a vibrant, supportive community where all voices can be heard and valued.
