Through the SIUE scholarship management system, all students can browse and apply for more than 450 scholarships available in the various schools, departments and units at SIUE. This system also offers information on various external or outside scholarships available as well.

To browse all scholarship opportunities and awards visit
siue.academicworks.com.

To get started, follow these steps:

1. Login with your e-ID and Password. You must have already been accepted to SIUE and received your e-ID and password.
2. Fill out the general scholarship application. The system will search for scholarships and awards you may be eligible for. For some, you will automatically be entered into the applicant pool and others may require you to answer additional questions, submit an essay or letters of recommendation.
