

Critical Care Worksheet: Grading Criteria

Student _____

Objective	1	2	3
<p>Page 1</p> <p>Student will gather appropriate information to begin case study</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p> <p>Analysis of history and indication for ventilation is missing</p>	<p>Required data is gathered and recorded.</p> <p>Partial SOAP is attached</p> <p>Analysis of history and indication for ventilation is correct</p>	<p>Additional pertinent information is included.</p> <p>Completed SOAP is attached</p> <p>Analysis of history and indication for ventilation is well explained</p>
<p>Page 2</p> <p>Student will evaluate initial ventilator settings and correctly interpret initial ABG.</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p> <p>Analysis of ventilator setting and/or ABG is incorrect</p>	<p>Required data is gathered and recorded.</p> <p>Basic explanations are given for settings and patient-ventilator interactions.</p> <p>Analysis of ABG is correct</p>	<p>Additional pertinent information is included.</p> <p>In-depth explanations are given for settings and patient-ventilator interactions.</p>
<p>Page 3</p> <p>Student will evaluate current ventilator settings and correctly interpret current ABG.</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p> <p>Analysis of ventilator setting and/or ABG is incorrect</p>	<p>Required data is gathered and recorded.</p> <p>Basic explanations are given for settings and patient-ventilator interactions.</p> <p>Analysis of ABG is correct</p>	<p>Additional pertinent information is included.</p> <p>In-depth explanations are given for settings and patient-ventilator interactions.</p>
<p>Page 4</p> <p>Student will propose explanations for patient data.</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p> <p>Analysis of data is incorrect</p>	<p>Required data is gathered and recorded.</p> <p>Basic interpretations are provided for questions.</p> <p>Analysis of data is mostly correct.</p>	<p>Additional pertinent information is included.</p> <p>In-depth explanations are given for questions.</p> <p>Analysis of data is correct.</p>
<p>Page 5</p> <p>Student will formulate top 5 problems affecting ventilation or weaning from ventilator.</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p> <p>0 or 1 problems were identified and explained.</p>	<p>Required data is gathered and recorded.</p> <p>Basic interpretations are provided for questions.</p> <p>2 to 3 problems were identified and explained.</p>	<p>Additional pertinent information is included.</p> <p>In-depth explanations are given for questions.</p> <p>4 to 5 problems were identified and explained.</p>
<p>Page 6</p> <p>Student will evaluate hemodynamic values.</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p>	<p>Required data is gathered and recorded.</p> <p>Basic interpretations are provided for questions.</p> <p>Oxygenation calculations correct.</p>	<p>Additional pertinent information is included.</p> <p>In-depth explanations are given for questions.</p> <p>Expected values are given for non-collected parameters.</p>
<p>Page 7</p> <p>Student will evaluate laboratory values.</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p>	<p>Required data is gathered and recorded.</p> <p>Basic interpretations are provided for questions.</p>	<p>Additional pertinent information is included.</p> <p>In-depth explanations are given for questions.</p> <p>Expected values are given for non-collected parameters.</p>
<p>Page 8</p> <p>Student will report findings in a concise written form suitable for a shift change report.</p>	<p>Some required data is missing.</p> <p>Non-pertinent information is included</p>	<p>Required data is gathered and recorded.</p> <p>Basic report of patient status includes basic assessment, current vent settings, indication for ventilation</p>	<p>Additional pertinent information is included that is appropriate for a shift t report.</p> <p>Basic report of patient status includes enhanced assessment findings, current vent settings, indication for ventilation, weaning plan or progress.</p>
